hot yoga schedule - class descriptions

60 MINUTE SERIES – This class is an elegant series of poses and breathing exercises. Done in a heated room of 95-104 degrees, our Hatha based classes allow you to achieve more flexibility and a deeper intensity to your postures. Our classes offer increased mental, physical, and emotional strength and flexibility. The benefits are many, including mental clarity, stress relief, and disease prevention.

You will feel challenged by the yoga during class – everyone does! Always work to your edge, but listen to your body and your inner wisdom. It is not unusual, especially when first starting a hot yoga practice, to feel dizzy, nauseated, or lightheaded. Never be afraid to lie down and rest at any time. As your body acclimates and detoxifies, these sensations will dissipate.

BEGINNER, WARM SERIES – These classes are offered for beginners to hot yoga and practiced at 85 degrees. The postures and series will accommodate all levels and is a beautiful transition into the hot studio. Relax your mind, reduce stress and bring freedom and fluidity back into your body.

POWER FLOW SERIES – These challenging flow-style classes are based in the practice of Surya Namaskara, or sun salutations, that form the bridge to connect poses. The student moves almost continually through the class with breathing cues. Due to the nature of the class the heat will stay at 95 degrees and is more suited to intermediate practitioners.

ENERGY AND HEAL YOGA – In this gentle class we will start with a brief introduction of how the Energy lines work that day, and explore them in both Physical and Energetic levels. Then “Centering the Mind” with Qigong and Pranayama. Follow by learning how to self-trace the Energy Channel, then begin the guided sequence (practice with props such as bolster/blocks/strap) designed to restore balance to these energy channels with explanations for each posture. All levels welcome!
